📁 Projects

Sioom event ✍

Apr 2024 – Apr 2024

UX/UI Designer & Web Developer

- SIOOM, annual event for opticians, has optimized its 2024 web app for them. the web app is clear and intuitive, providing event information through plugins and efficient design. I refined my WordPress, Template design and PHP skills on this project.

Ping Pong Online Game ✍

Jan 2024 – Mar 2024

UX/UI Designer & Front-End Developer

- Led the front-end development of the Ping Pong web application, a platform dynamic allowing users to play, chat online and connect with friends.
- Used React ,TypeScript and Tailwind CSS to design and implement the user interface, ensuring a smooth and responsive user experience across different devices.
- Design and implementation of a Japanese manga style design with Figma tools and Photoshop, aimed at optimizing the aesthetics of the user interface while guaranteeing optimal functionality and ergonomics.
